Police Urge Residents To Lock Home Doors and Windows after Reports of Home Invasion

The Fond du Lac Police Department is urging residents of the City to ensure that doors and windows to their homes are secure after investigating two reports of a naked man entering or lurking outside homes in the Primrose Lane area of the City.

In the latest incident on July 23, 2014 at approximately 4:15 a.m., a home owner in the area of Dewberry Dr. and Primrose Lane was awakened by the barking of their dog only to find a naked male subject in the hallway of the residence. The Male home owner chased after the intruder for a short distance but lost sight of him.

The description of the suspect and the location of the incident appear to be similar to an incident that was reported on June 24, 2014. In that incident a subject reported that at approximately 3:17 a.m., a home owner was in the kitchen of her home when she heard someone open and shut the front door to her house. The homeowner went outside the front door to check and as she walked around her car saw a naked white male. The male subject claimed he was out for a walk and then took off running.

In both incidents the suspect was described as a white male between 20-30 years of age, anywhere from 5'10 to 6'3 in height, with a lean to medium build with short hair. In the latest incident it appears that entry was gained through a door to the residence that was inadvertently left unlocked. Police are urging residents to make sure when they retire for the evening to check the doors and windows to their homes

to see that they are locked. Also, Police recommend keeping a phone nearby the bed to call 911 in the event of a home intruder.

Police are also looking to see if the two incidents are connected to a report received on July 20, 2014 at 2:25 a.m. in which a white male was reported running naked south bound on Marr Street from the area of E. 9th St.

Anyone with information on these incidents is asked to call Lead Detective Steve Kaufmann at (920) 322-3725 or the Crime Alert number at (920)322-3740.
